Nicole Beltran Graduates

Miss Nicole Beltran, Program/

Project Coordinator I for the PCRI received her Master of Business Administration in Health Care Management. She received her diploma at the Burg Center, Dallas Baptist University in Dallas, Texas on the 17th of December, 2010.

Nicole was also recently honored with a luncheon by PCRI faculty and staff of the at Patrizio's Restaurant in Fort Worth in honor of her achievement.

Dr. DeHaven Featured in North Texas Health & Science Magazine

Dr. Mark DeHaven, Director, Primary Care Research Institute, Professor of Family Medicine, and Direc-

tor of the GoodNEWS Program was featured in the cover story of the 2010 Issue 3 of the North Texas Health & Science Magazine of the UNT Healthy Science Center. Pages 4-8 detail an excellent article about how healthy habits can counter genetics and also delves into some of his projects, namely, GoodNEWS (Genes, Nutrition, Exercise, Wellness and Spiritual Growth); and the Healthy Harvest project. You can read the entire article online by going to http://www.hsc.unt.edu/news/documents/NTHSC Magazine Num3 sm.pdf.

PCRI Moves to New Office Space

The Primary Care Research Institute has recently moved from the Patient Care Center (PCC) to the Education and Administration Department Building (EAD) on the UNT Health Science Center campus. The new address is 3500 Camp Bowie Boulevard, EAD738, Fort Worth, TX 76107.

All phone and fax numbers remain the same. The PCRI continues to maintain a clinical lab, interview room and student computer lab in the PCC, but all faculty and administrative personnel have moved to the EAD.

Lesley Bonner Joins GoodNEWS Team

Lesley Bonner joined the Family Medicine/Primary Care Research Institute staff in late September 2010. She will be working with Dr. Mark DeHaven on the GoodNEWS project in Dallas.

Miss Bonner graduated from the 2010 UNTHSC School of Public Health masters pro-

gram with a degree in Social and Behavioral Sciences/Community Health. She received her bachelor of Science degree in biology from Clark Atlanta University in Atlanta, Georgia in 2006.

Lesley has experience with community-

based research which includes AIDS outreach, G-Force, and Project Team and will prove to be a valuable asset to the GoodNEWS team.
