The Open Access Publisher

Osteopathic Medicine and Primary Care is an open access, peer-reviewed, online journal encompassing all aspects of osteopathic and allopathic treatment as well as research relevant to the provision of primary care services at the level of the individual patient or entire population.

Primary care articles may address any aspects of family medicine, internal medicine, pediatrics, and obstetrics and gynecology. The journal will also cover health services and public health research that addresses primary care issues.

In addition to the aforementioned themes, osteopathic medicine articles may also cover uniquely osteopathic topics, such as osteopathic manipulative treatment and its mechanisms of action, reliability of palpatory findings, clinical outcomes, and efficacy in treating a variety of musculoskeletal conditions or related disorders.

***Osteopathic Medicine and Primary Care* considers the following article types:**

• Research • Reviews • Commentaries • Short reports • Study protocols. For further details, see www.om-pc.com/info/about
