

A HEARTY THANK YOU TO OUR RAD JUDGES!

Without our Research Appreciation Day (RAD) judges each year, RAD would not be a successful event. The PCRI would like to thank three judges who represented us this year.

Dr. Kathryn Dolan, PhD, is an Assistant Professor for Family Medicine and Coordinator for Community Medicine components of the TCOM curriculum.

Dr. Anita Kurian, MBBS, DrPH, serves as Chair of the PCRI/NorTex Community Advisory Board as well as the PCRI Executive Board. She is the Division Manager and Chief Epidemiologist for Tarrant County Public Health.

Dr. Richard Young, MD, is a physician for JPS Family Medicine and also serves on the PCRI Executive Board as well as the PCRI/NorTex Scientific Review Board.

Our many thanks to these three dedicated individuals for their support of medical education, research, and community health and improvement.

SEMI-ANNUAL PCRI STAFF RETREAT

Dr. Roberto Cardarelli, DO, MPH, hosted the spring staff retreat at his home this month. The theme was “Cinco De Mayo” and the staff was well represented with eight in attendance.

Dr. Roberto Cardarelli, Dr. Kitzman-Ulrich and Kristen Hahn enjoying lunch

The group enjoyed great food and relaxing conversation and camaraderie during the afternoon event. Attendees played pool and several friendly and competitive Wii games as well as lounged on the balcony to enjoy the fine weather and beautiful scenery.

Dr. Anna Espinoza and Lorna Brooks in a friendly Wii competition.

Dr. Cardarelli and Dr. Kim Fulda in a game of pool.

A walk along the Cardarelli estate topped off the afternoon before the group broke for the day. We want to thank Dr. Cardarelli for his most gracious hospitality and for opening his home for the enjoyment of his staff. Great team; great times!
